MEMORANDUM NO. CCDP 2017- 037

TO : All concerned

SUBJECT : Safety around the backfilled excavation for the UPCM Academic Center

The area surrounding the backfilled excavation for the Proposed UPCM Academic Center has been inspected by CPDMO. It is deemed safe to open additional pedestrian access paths from Pedro Gil to Faura Street and vice versa.

Specifically, we will now allow pedestrian traffic through the path between the University Library and CPH Annex Buildings. The access from Salcedo building side will remain to be through the tennis court since the road is yet to be repaired. Student *tambayans* remain off-limits.

The road between the University Library and ambulatory care of the Department of Emergency Medicine will now be opened to vehicular traffic, as they were prior to the incident. Everyone is advised to observe the traffic signs put up by the UP Manila Police to guide our motorists and pedestrians.

The College of Public Health Annex I and II, Calderon Hall and Alvir Hall can now be used as they were prior to the incident.

The University Library will still be preventively vacated pending its evaluation for structural integrity. The Florentino Herrera Medical Library will remain closed.

For information and guidance.
