Heidie Frisco Cabanos, MSc, PhD BSP Awardee 2021

Research Fellow, Massachusetts General Hospital – Harvard Medical School
Postdoctoral Fellow, The Scripps Research Institute

Dr. Cabanos is a research scientist with a broad and diverse research and academic background in the fields of biomedical translational research and chemical biology. She finished her Masters degree in Biochemistry at the University of the Philippines, Manila, where she worked on polymeric peptide immunogen against Staph bacteria. She obtained her Doctorate in Medical Science major in Chemical Biology at Kyoto University, Japan, where she worked on designer molecules that inhibit apoptosis and can be used in cell transplantation. She did her postdoctoral training at The Scripps Research Institute in Florida, USA, where she worked on synthetic antigen surrogates for biomarker discovery and treatment designs for melanoma, multiple myeloma, tuberculosis and dengue. She further trained in translational cancer research at the Center for Cancer Research at Massachusetts General Hospital-Harvard Medical School in Massachusetts, USA, where she worked on acquiring drug resistance in EGFR mutant non-small cell lung cancer. During her engagement as a Balik Scientist, Dr. Cabanos helped in establishing translational research labs and projects that focuses in health science and biomedical research.

Balik Scientist Program Exit Report Presentation

Heidie Frisco Cabanos, MSc, PhD

June 16, 2022 | 1:00-3:00 PM | via Zoom

Programme

"Biomedical Translational Research: Building Science into Products and Clinical Trials"

Time	Activity
1:00PM	Reading of the House Rules Invocation Philippine National Anthem Opening Remarks
1:15PM	Introduction of the Speaker
1:20PM	Exit Report Presentation "Biomedical Translational Research - Building Science into Products and Clinical Trials"
2:20PM	Open Forum
2:45PM	Response from PCHR Awarding of Certificate
2:50PM	Closing Remarks

Brian Andrich L. Pollo
Master of Ceremonies
