

# COLLEGE OF ALLIED MEDICAL PROFESSIONS

UNIVERSITY OF THE PHILIPPINES MANILA

The Health Sciences Center

## UP CAMP

the leader in **transformative, collaborative and innovative education** for occupational therapy (OT), physical therapy (PT), speech-language pathology (SP or SLP) and clinical audiology

In the Philippines, there are approximately 14.5M Filipinos living with a severe disability

*National Disability Prevalence Survey, 2016*

OTs, PTs and SPs are critical in helping people with disabilities achieve their goals and participate fully in their communities

Today, there are **not enough therapists to cater to our growing population.** In the Philippines, for every 10,000 Filipinos, there are:

- 0.19 licensed occupational therapists
- 1.21 licensed physical therapists
- 0.096 licensed speech pathologists

## SERBISYO PARA SA BAWAT PILIPINO

#ProudCAMPers

# CALLED TO SERVE

CAMP produces OTs, PTs and SPs ready to serve and meet the healthcare needs of every Filipino

## MGA FUTURE THERAPISTS NG BAYAN

UP CAMP shapes **healthcare leaders** who are competent, responsive, future-focused, informed, and service-spirited advocates for disability-inclusive health, dedicated to the University of the Philippines' motto:

# HONOR, EXCELLENCE & SERVICE

# LEARN & ENGAGE

*with experts in our fields*

BS Occupational Therapy, BS Physical Therapy and BS Speech Pathology are 4-year undergraduate programs.

Students from **all tracks** of senior high school are eligible to apply.

Across the programs, students take a combination of courses, including:

- general education courses
- foundational courses
- core courses
- major courses

All programs culminate with a year-long internship, composed of clinical and non-clinical placements, hands-on training across diverse settings, preparing graduates for careers in various fields of practice.

### • Occupational Therapy

Occupational therapists help people do meaningful everyday tasks, known as occupations, like dressing and bathing, cooking, studying or working, to live more independently and do activities that are important to them.

### • Physical Therapy

Physical therapists help people improve movement, manage pain, and support recovery from injuries using exercises and other evidence-based techniques to improve movement and mobility and prevent further issues or health conditions.

### • Speech Pathology

Speech-language pathologists help people with speech, language, and swallowing problems. They work on improving how people speak, understand language, communicate socially, and swallow safely.
